**100% PROLIVON
THERMAL SHIRTS**

Prolivon is a unique, sophisticated polyester blend of ultra fine, hollow fibers engineered to withstand many types of conditions and climates.

· Moisture and sweat are drawn away from your body and evaporate quickly in the hollow fibers – leaving you comfortable and dry

· Retains warmth and controls body temperature – hollow core traps and releases natural body heat

· Lightweight – Perfect for layering underneath a sweater or long-sleeved shirt on cold, blistery days, or wear alone with your favorite jeans on milder days

Care Instructions: Using a mild detergent, hand or machine wash gentle in cold water. Air or tumble dry on low setting. For best results, hand wash and hang dry.

Care Instructions (in Chinese): Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis posuere massa in dolor. Vestibulum id odio et tellus sollicitudin ornare

Care Instructions (in French): Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis posuere massa in dolor. Vestibulum id odio et tellus sollicitudin ornare

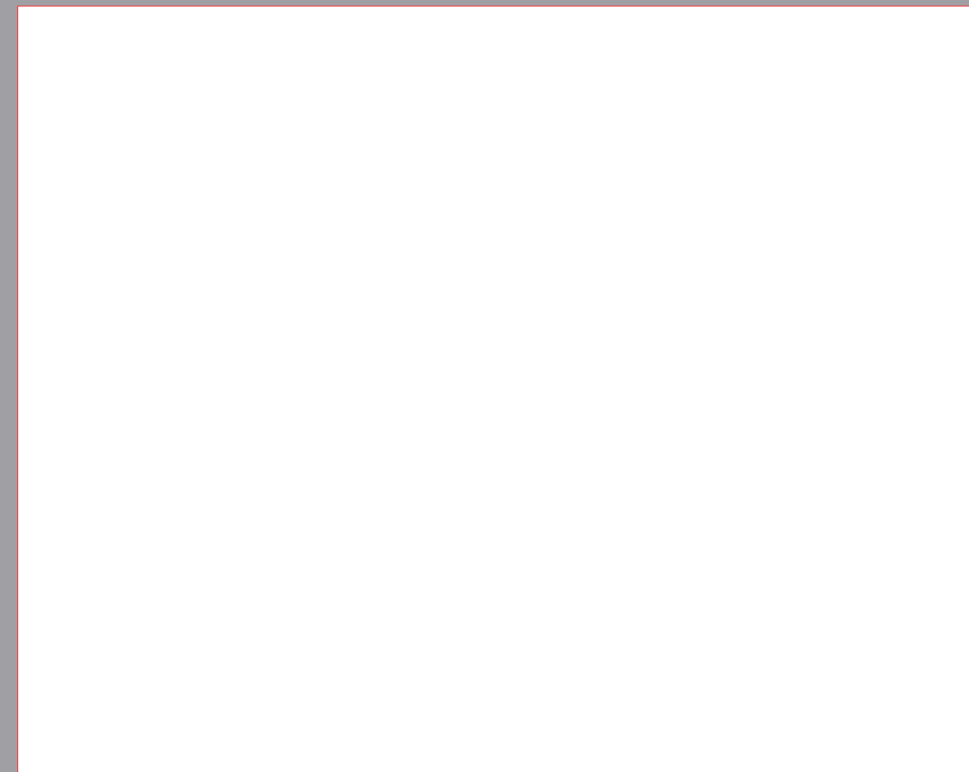

Care Instructions (in Spanish): Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis posuere massa in dolor. Vestibulum id odio et tellus sollicitudin ornare
