

“Remote Web UI/UX Layout Graphic Designer” Gig Description & Requirements

Malibu based creative marketing agency Vivid Candi (www.vividcandi.com) is seeking a UI/UX graphic designer who loves to design cutting edge UI/UX website layouts for a variety of amazing clients and is also open to other graphic design projects as they come up. This would be a very flexible and on demand situation that can flex 0-40+ hours a week depending on what work we have and need.

Work Description:

- UI/UX layout design and graphic design for Wordpress and Shopify Websites. If you can code and are FULL STACK– that’s a HUGE BONUS.
- Expert with 3+ years experience in Adobe Photoshop and Illustrator along with any other relevant design programs.
- Expert level at designing unique branded designs that include brand elements, brand colors and brand fonts. You should know how to work with brand guidelines well.
- Current with website trends and always thinking outside of the box. We don’t want to do boring corporate designs– we want to push the envelope and design really cool unique cutting edge and trend setting UI/UX layouts.
- Join Art Direction meetings with clients over Zoom and/or occasionally in person.
- Work with Basecamp cloud project management and stay highly organized.

Job Requirements:

- 3+ years experience in web UI/UX design.
- 3+ years experience with Adobe Photoshop and Illustrator.
- Highly self organized and self disciplined.. Organization is efficiency and that is a key for success at our agency.
- Great team player and has fun doing the work and is passionate about it. Be open to team hikes, team dining, team trips and more over time.
-

COMPENSATION:

TBD \$25-\$30/hr based on experience and skill
